“ After reading "Mom's" life story I now see why she was truly such an amazing lady. I've known her for more than 55 years and didn't realize until I was older just how vibrant and fearless she was. This lady never one time judged another person. She believed in letting you be the person you were meant to be. If you did something to upset her she would definitely let you know about it but would turn right around and hug you. I was one of those blessed people that called her Mom even though she was actually Mom to one of my longest and best friends, Renee. Too many years of memories to post here but she started something while in St. Pete that still goes on today. A group of us girls, friends since elementary and middle school were invited to her home on the beach. She always, every year had us some of the most amazing food when we got there. Got up really early every morning before heading out to work and fixed us all "Really healthy" breakfast and left us a rose on our plates as she was up and gone before we crawled out of the bed. So much older than we were yet three times the energy. She healed many sun burns, would not tolerate anyone hurting or being mean to someone she loved and would always listen if you needed a friend without judgment. I remember thanking the Lord that I was one of those people. She was one you wanted on your side because she knew how to make you feel loved! Now I know why, she lived a full life doing wonderful and exciting things. David, Kathy, Renee and Robert, I love each of you and hope you know I am praying for each of you. Mom will definitely be missed but she sure left a lot of wonderful memories in my own heart. Sorry this is so long. Loved your Mom a whole lot!
