

## Tracy Michell Graves

June 15, 1978 - May 16, 2024

The main thing about Tracy was that she had the biggest, most caring heart of anyone around her. She loved hard, and you could feel love radiating off of her whenever she was around. Along with love, she was full of faith. She prayed for everyone she met. She talked to God like he was her best friend. Through any and every trial and tribulation, she never lost either one of these things.
